

PROJECT: ENVIRONMENTAL MANAGEMENT PLAN (EMP)

SITE NAME: ESCRAVOS 7 & 10 TON MUNICIPAL INCINERATORS

Chevron Nigeria Limited (CNL), a Chevron Africa and Latin America Exploration and Production (CALAEP) subsidiary, operating for and on behalf of NNPC/Chevron Joint Venture, in strict pursuance of her corporate strategy of Operational Excellence (OE) on Environmental Stewardship Process and regulatory requirement, commissioned Giolee Global Resources Limited to conduct the Environmental Management Plan (EMP) monitoring of the Escravos 7&10 Ton Municipal Incinerators to benchmark the outcome of the EIA with the operational activities of the incinerators. The main objective of this EMP is to prepare the Chevron Nigeria Limited for prompt recognition of the impact (if any) that may have resulted from her activities and the application of effective corrective measures to ensure proper management of the incinerator site, while at the same time, achieving a good environmental performance.
